

TAIHEIYO CEMENT NEWS LETTER

September 24, 2019

Taiheiyo Cement Selected for the Sixth Consecutive Year for the Dow Jones Sustainability Asia Pacific Index

Taiheiyo Cement was selected for the sixth consecutive year as a component of the Dow Jones Sustainability Asia/Pacific Index (DJSI Asia Pacific) in 2019. We are selected as DJSI Asia Pacific sixth consecutive years since 2014. This index is the Asia Pacific version of the Dow Jones Sustainability Indices (DJSI) and serves as one of the key benchmarks for ESG investment.

The DJSI are the investment indices developed and offered cooperatively by the U.S.-based S&P Dow Jones Indices and Switzerland-based RobecoSAM, which evaluate the sustainability of companies in terms of environmental, social and governance criteria.

The DJSI Asia Pacific has selected the top 158 regional sustainability leaders, including 76 Japanese companies out of about 600 leading companies, from developed markets in Asia Pacific.

Taiheiyo cement aspires to leadership in pioneering a sustainable future for the earth. We are committed to doing business in ways that contribute to economic development, are environmentally responsible, and make a positive difference in the world.
