Taiheiyo Cement Selected for the Dow Jones Best-in-Class Asia Pacific Index

Taiheiyo Cement Corporation (Head Office: Bunkyo-ku, Tokyo; President: Yoshifumi Taura) has been selected, for the second consecutive year, as a component of the Dow Jones Best-in-Class Asia Pacific (DJBIC Asia Pacific) Index in 2026. This index is the Asia Pacific regional version of the Dow Jones Best-in-Class (DJBIC) Indices and serves as one of the key benchmarks for ESG investment.

The DJBIC Indices are stock indices (hereinafter referred to as the “Index”) developed and provided by the U.S.-based S&P Global Inc., which assesses corporate sustainability from environmental, social, and governance (ESG) perspectives. The Index includes regional categories such as World, Europe, and Asia Pacific. For the DJBIC Asia Pacific Index, approximately 600 major companies in the Asia Pacific region were evaluated through an ESG survey, resulting in the selection of 162 companies (including 76 from Japan). Among them, Taiheiyo Cement Corporation was the only company selected from the cement industry.

Our selection for the DJBIC Asia Pacific Index this year reflects our efforts to address climate change as outlined in our “Carbon Neutral Strategy 2050,” our contributions to the formation of a circular economy, and the promotion of environmental management initiatives, including those related to biodiversity. In addition, we were recognized for our transparent information disclosure and our commitment to human rights.

Taiheiyo Cement Group will continue to contribute to social infrastructure development by providing solutions that are environmentally efficient, enhance our competitive position and bring value to our stakeholders.
